OTE-1634-87

6 October 1987

	MEMORANDUM FOR:	Members, Agency Training Steering Committee		
25X1	FROM:			
	110111	Director of Training and Education		
	SUBJECT:	14 October 1987 Agency Training Steering Committee Meeting		
	1. The last meeting of the Training Steering Group was in April. I am looking forward to the chance on 14 October to go over some of the new developments in training and to elicit your thoughts on what we should be doing. 2. The attached agenda lists some things that seize our attention at this time. The key themes behind this agenda are our commitments to make training more relevant and more available to your employees. We need your views and guidance on these issues as we plan ahead and to implement new programs. 3. The agenda does not mention OTE budgeting for FY88. We have been over our budget carefully and note that it reflects some important shifts in emphasis. I will describe what these are at the outset of the meeting.

AGENDA

AGENCY TRAINING STEERING COMMITTEE MEETING

WEDNESDAY, 14 OCTOBER 1987

1530 HOURS, ROOM 7D32/HEADQUARTERS

25X1	Interagency Training Cooperation	D/OTE
	Over the last few years, OTE has taken in work on intelligence issues of common concinteragency training cooperation, as exemp operations training for the military and a of INR for a new budget initiative. React	ern. There is a renewed interest in lified by the forthcoming increase in request to the DDCI from the Director
25 X 1	Available Training	Deputy Director for Curriculum
	One of the key issues identified in human that of making training readily "available a fair amount of tailored teaching at the 1988. The forms available training takes instruction, self-study, and broadcast pro available training entails is ensuring that high quality, a purpose we hope to help furrainers" program.	"to our people. OTE is already doing worksite, but there is more to come in are varied; they include classroom grams. Yet another face of what at component-conducted training is of
25 X 1	New Initiatives in Language Training	Chief, Language Training Division
	One of the oldest areas of instruction is mean that technologies in this area do not variety of new forms of instruction and cowho can advise us on ways to upgrade our process.	change. OTE has been adopting a ontinues to look for outside consultants
25 X 1	Introductory Courses and Ethics	Chief, Career Training Division
	Our effort to increase the ethics content We have completed a variety of interviews series of road trips to private sector fin at inculcating values in their new employe	within the Agency and have begun a rms that seem to be especially effective
25 X 1	Off-Campus and Full-Time Training	Chief, Training Support Division
	Two years ago the Training Steering Commi	ttee directed OTE to continue the

off-campus program one more semester on a trial basis. Usage of the program had fallen off. That seems to have turned-around. Full-time academic training is also up dramatically this year.
